Catherine Hardman, Executive Director of Choices for Change presented a message to the Board members that Huron County does not offer the level of services their residents require. There is one time funding available from the LHIN to amalgamate the services of the Huron Choices for Change with the Huron Addition Services (HAS). HAS is currently sponsored through the Huron County Health Unit. She advised that there needs to be more partnerships in Huron County, such as partnering with Family Health Teams.

There is a challenge for the HAS to amalgamate with the Huron Choices for Change and that is that the HAS staff work within a union environment and the Choices for Change is not in that environment. It may be prudent to look at how to get the unionized workers from HAS and the non-unionized workers from the Huron Choices for Change to become one team.

Patricia Dwyer was in attendance representing the Southwest Local Health Integrated Network (LHIN). After a great deal of discussion; with the members of the Board of Health given an opportunity to ask questions; it became very clear that a consultant needs to be hired to investigate the amalgamation of the two groups. LHIN has committed \$25,000 towards the hiring of a consultant. The Health Unit and Choices for Change are currently preparing a proposal for the terms of reference to hire a consultant. Patricia Dwyer confirmed that a Performance Agreement from LHIN will be the guideline for this consultant. A report to Senior Directors from Patricia Dwyer is attached to these minutes as Schedule B.

MOTION:
