4.2 Business Arising from the Minutes:

Following the direction from the Board of Health's September 2nd, meeting, a meeting was held in the Honourable Carol Mitchell's office in Clinton (MPP for Huron-Bruce). The result from the meeting held on September 24th, was the following Motion for the Board's consideration:

MOTION:

Moved by: Member T. Collyer and Seconded by: Member B. Dykstra:

WHEREAS:

Dr. Arlene King the Chief Medical Officer of Health in Ontario has provided a report entitled The H1N1 Pandemic – How Ontario Fared; that is an informal assessment, aimed at the people of Ontario, of what went well and what didn't during its course;

AND WHEREAS:

Dr. King has made three recommendations in the report, two of which have caused significant concern to the Huron County Board of Health;

AND WHEREAS one of the recommendations in the report is to have the Chief Medical Officer of Health have the ability to issue directives to boards of health to ensure coordination and standardization of public health programs and services, such as immunization;

AND WHEREAS a second recommendation is for a more formal role of the Chief Medical Officer of Health in appointing local Medical Officers of Health, in addition to that of the Minister under Section 64 of *the Health Protection and Promotion Act*;

AND WHEREAS aPHa (Association of Local Public Health Agencies) has responded to Dr. King of the Association's strong reservations about the proposed changes and the Association's desire to have a full discussion about the underlying rationale for the recommendations to extend the chain of command at the local level and why the Province sees the proposed changes as necessary and appropriate; as these amendments are not justified and not consistent with the recent directions in Ontario to support the autonomy of local Boards of Health;

AND WHEREAS the Huron County Board of Health strongly believes there is a very big difference in how services are delivered in rural Ontario compared to how services are delivered in a large urban centre such as Toronto. There is not a standardized or "one size fits all" approach to delivering public health programs in Ontario;

NOW THEREFORE BE IT RESOLVED THAT the Huron County Board of Health appeals to the Minister of Health and Long-Term Care that the intent to introduce legislation this fall; be postponed until the aPHa membership has the opportunity to discuss the proposed legislative amendments to augment the Chief Medical Officer of Health's authority at the local level with the Minister of Health and Long-Term Care Deb Matthews;

AND FURTHER THAT the Huron County Board of Health forward this Motion to Minister of Health and Long-Term Care Deb Matthews, MPP Huron-Bruce Carol Mitchell and aPHa.
